

COPPER FOIL TAPE / COPPER TAPE

Product Specification :

SL No	Size	Length Per Roll	Packing / Carton
1	12mm	20 Mtrs	1 Roll
2	19mm	20 Mtrs	1 Roll
3	25mm	20 Mtrs	1 Roll
4	36mm	20 Mtrs	1 Roll
5	50mm	20 Mtrs	1 Roll
6	75mm	20 Mtrs	1 Roll

Applications :

- Electrical connection between surfaces (sheets / foils)
- Die-cuts
- Mounting transparent foils, windows
- Shielding in housings
- Cable shielding
- Temporary shielding during tests
- Antistatic floor
- Electrically conductive tapes can be cut to any width from 10 mm wide and can be delivered from stock. A width of 25 mm is used most commonly. Standard roll length 25 meters..
- When you need to cover bigger surfaces you can contact our engineers because than you can possible better use this tape in combination with copper foil with a non-conductive adhesive. This is a much cheaper solution.
