

ESD KAPTAN TAPE(60 Mic)

ESD Safe Polyimide Tape With Silicon Adhesive

ESD Polyimide film coated with ESD high temperature resistant silicone pressure sensitive adhesive. Aggressive adhesion, high temperature resistance, good protection. Applicable to printed circuit board (PCB) and protecting to gold fingers and all kinds of insulation in wave soldering tin stove.

◆ **Composition**

◆ **Feature**

- Easy machining;
- High Heat Resistance ;
- Anti Static

◆ **Application**

- Applicable to printed circuit board (PCB) and all kinds of insulation in wave soldering tin stove , and protecting to gold fingers ;
- Sticking during SMT process

ESD KAPTON TAPE(60 Mic)

◆ **Performance Parameter**

Article	Parameter
Type of Adhesive	Specially made Silicone
Total Tape Thickness/mic	60
Backing Thickness/mic	25
Carrier	ESD Polyimide Film
Adhesion Strength/N/25mm	≥4.5
Initial Tack/mm	<30
Holding Power/h	≥48
Temperature Resistance	260°C
Friction Static Voltage/V	≤100
Jumbo Roll Size	520/500mm x 2000m,
Length	33Mtr
Log Roll Size	500mm x 66m, 500mm x 33m,
