

Rover Mask 775-8

Features:

- Latex Temporary Solder Mask
- Dries in 3 hours at room temperature or 1 hour at 70°C
- 8oz (227gm) Dispensing Bottle

Rover Mask™ is a premium quality, natural latex based temporary solder mask. It comes in a convenient 8 ounce (227 g) applicator bottle featuring a tapered spout for easy hand application. An inner safety seal keeps the mask fresh and prevents spilling in transit. A 10 mil coating of Rover Mask™ will dry in 3 hours at room temperature or 1 hour at 160 degrees F (71 C). Rover Mask™ 775-8 is both RoHS and REACH compliant and has a one year shelf life.
