

**STATIC SYSTEMS**  
TOTAL SOLUTION FOR ELECTRONIC INDUSTRIES

## **Binocular Zoom Stereo Microscope**

**MODEL: SZ09010121**

System Optical Magnification: 8~50X. 10X  
Adjustable Eyepiece. 1X Built-in Objective  
Zoom Ratio: 1:6.3  
Eye tube Angle: 45°  
Binocular Track Stand  
System Working Distance: 115 mm

### **Optical System Specification**

|  |                         |
|--|-------------------------|
| Optical System   | Finite                  |
| System Optical Magnification                             | 8-50X                   |
| Expandable System Optical Magnification (Optional Parts) | 4-300X                  |
| Total Magnification                                      | 8-50X                   |
| Standard Eyepiece  | 10X Adjustable Eyepiece |
| Standard Objective                                       | 1X Built-in Objective   |
| System Field of View                                     | Dia. 4.4-27.5mm         |
| Expandable System Field of View                          | Dia. 2.2-55mm           |
| System Working Distance                                  | 115mm                   |
| Expandable System Working Distance                       | 45-220mm                |
